

10 WAYS YOU CAN HELP KEEP INDIANAPOLIS BEAUTIFUL

Keep Indianapolis Beautiful, Inc. unites people to build community and transform public spaces through aesthetic and environmental improvement.

01 Plant a Tree! Neighborhoods or community organizations can receive 20+ trees to plant along residential streets or in public spaces as part of the NeighborWoods program. KIB will help you organize your planting. For more information visit www.kibi.org or contact Andrew Hart at ahart@kibi.org or 317.264.7555 x 110.

02 Adopt-A-Median! This simply requires that your neighborhood association, business or organization takes the time to care for the median you adopt. In exchange, your organization name will be prominently displayed on median signage. For more information visit www.kibi.org or contact Mark Adler at madler@kibi.org or 317.264.7555, x105.

03 Organize a Neighborhood Litter Cleanup! Litter can harm children, animals, and the environment. Research also shows strong links between litter and crime. Organizing a neighborhood cleanup is a great way to help make Indianapolis cleaner, safer, and more beautiful. For more information visit www.kibi.org or contact Tammy Stevens at tstevens@kibi.org or 317.264.7555 x 116.

04 Make a Tax Deductible Donation! KIB strives to assist communities, many with scarce resources. Our projects would not be possible without the generosity of committed individuals, businesses and organizations. Donations may be monetary or material, such as supplies (mulch, plants, etc.). For more information visit www.kibi.org or contact Beth Kloote at bkloote@kibi.org or 317.264.7555 x 107.

05 Order Trash Boxes and Recycling Bins! Keep your event litter-free with KIB's trash box program. Through a partnership with WTHR, KIB provides trash boxes for only \$3.50 each. Recycling bins are loaned free of charge. For more information contact Laura Fox at lfox@kibi.org or 317.264.7555 x 100.

06 Create a Park in your Neighborhood! KIB, through IPL Project GreenSpace, can help you transform a barren space into a pocket park or community garden. Transforming these spaces enhances aesthetics of communities while improving safety and livability of neighborhoods. For more information contact Phil Schaefer at pschaefer@kibi.org or 317.264.7555 x 109.

07 Recycle! Help conserve our natural resources. As you run errands, look for the large green Recycle Indianapolis "Drop-Off" containers, placed around the city - they're free to use! To find a recycling drop-off site near you and to learn about other resources for recycling items such as cell phones, cardboard, etc., visit www.kibi.org/recycle.

08 Volunteer! Last year 45,000 volunteers donated their time, sweat and expertise to over 600 KIB community improvement projects. Join us this year! For more information visit www.kibi.org or contact Tammy Stevens at tstevens@kibi.org or 317.264.7555 x 116.

09 Adopt-A-Block! Through the Adopt-A-Block program, KIB provides each block coordinator with a cleanup kit. Clean blocks may earn flowers and trees. For more information visit www.kibi.org or contact Sarah Grain at sgrain@kibi.org or 317.264.7555, x106.

10 Shop KIB! See www.kibi.org/shop for all your KIB merchandise needs. We have a range of products that help support our efforts to beautify the city including water bottles, t-shirts, hats, and more!
