## COMMUNITY ENGAGEMENT

The tree planting program is a partnership. KIB provides trees, tools, mulch, and technical assistance. We can also assist in recruiting extra volunteers and engaging with the communities that are receiving the trees. Please let us know if you can provide any of the following- Note: these items are not required for your application to be approved, rather your answers will help us to better prepare to work with you on this project.

## TREE CARE AND MAINTENANCE

**For the first 3 years after planting, all trees must be watered once per week with 15 gallons of water from April through October. Other routine checks and maintenance is vital for the long-term survival of urban trees. Our Youth Tree Team will mulch and prune your trees and may help with watering if your project qualifies for KIB watering assistance.**

Can your group water these trees? If so, who will do the watering? Who will be responsible for making sure the trees are cared for? \*

How will you access water for your trees? \*

## ADDITIONAL QUESTIONS

How did you hear about the tree application? \*

Do you expect that you, your organization or the neighborhood will apply for more trees in the future? When? Where? \*
