## Project Information

Briefly describe your vision or mission for this tree planting: \*

General location of tree planting (trees must be planted in Marion County.): \*

Estimated number of trees to be planted (a minimum of 20 trees is strongly recommended. Species selection will be determined at a later date.): \*

If you know exact planting addresses please enter each planting address and the number of trees at that address. If not, include as much information as possible (street boundaries, description of site location). For example: 1029 Fletcher Ave, 1 tree, John Doe. \*

If you have additional information about planting locations (maps or site plan), please upload it here.

No File Chosen

If trees are going to be planted in front of homes or businesses, a representative from each address should help on planting day. How will you encourage this? \*

How many volunteers can you commit? How will you ensure that they will participate? (A recommended guideline is one volunteer per tree. If you plan on planting 20 trees, plan on needing 20 volunteers.): \*

Do you anticipate needing extra volunteers? \*

Yes No

The Tree Planting program is a partnership. KIB provides trees, tools, mulch, and technical assistance. You will be expected to provide food,

drinking water, and restrooms for the volunteers. Do you have a plan to provide the above mentioned amenities? \*

Yes No

## Tree Care & Maintenance

Learn more about best practices for tree care & maintenance from the [United States Forest Service Tree Owner's Manual](#).

All trees must be watered once per week with 15 gallons of water from April thru October for 3 years. Some projects may qualify for KIB watering assistance. Is your group capable of watering these trees once a week April thru October? \*

Yes No

Who specifically will carry out your tree maintenance? Who will be responsible for insuring the care is being implemented? \*

How did you hear about KIB's tree planting application? \*
