REDUCE WASTE AND REPURPOSE!

The Challenge:
The Indianapolis Department of Public Works is challenging us to reduce, reuse and recycle! Let’s answer the challenge by finding ways to REUSE and REPURPOSE items in our homes!

Get started:
- Find items in your home that you no longer use or you are ready to throw away. Make sure to only choose items that are clean and safe.
- Think about some ways to REUSE them. Check out some examples below or come up with your own ideas!

Turn an egg carton into a mini garden!
Have some fun with bottle cap art!

Share what you did:
Take photos of the items you have re-used on Twitter or Facebook with the hashtag #Indy3RChallenge and tag @kibiorg. One entry will be randomly chosen to receive a prize!
